Ryan C. Durham

Senior Software Engineer

Portland, Oregon • (415) 328-4688 • ryan@stagerightlabs.com • linkedin.com/in/rydurham

Summary

Full stack engineer with 10+ years experience in building and maintaining enterprise web applications. Draws on a background in project management with a focus on communication. Enjoys staying current with industry trends and learning about new technologies.

Experience

Firebrand Technologies

Product Manager, Eloquence On Alert: 2026-Present
Senior Software Engineer: 2021-2026

- Lead engineer supporting the *Eloquence On Alert* product offering.
- Created a high volume intake queue for processing ONIX metadata files, increasing throughput 10x.
- Rebuilt AWS infrastructure to facilitate stack modernization while also reducing hosting costs by ~20%.
- Lead a team that migrated the product from Symfony v6 to Laravel v13 along with a complete design overhaul and no loss of customer data.
- Responsible for interfacing with customers to field feature requests and help with user training.
- Designed a proprietary ONIX compatible JSON schema for enabling the efficient storage and retrieval of book metadata at scale.
- Developed an ETL pipeline in Node that manages conversion between ONIX XML and the proprietary JSON format, improving record processing times 2x.

Phylos Bioscience

Senior Engineer: 2019-2021
Software Engineer: 2016-2019
Contractor: 2014-2016

- Designed, built and maintained an enterprise scale PHP application that managed sales, LIMS laboratory workflows, delivery of customer testing results and business intelligence reporting. Over 400,000 customer samples processed prior to my departure.
- Served as a liaison between engineering, the laboratory and QA, helping guide development road maps to consistently achieve quarterly objectives.
- Implemented full-text search for a public facing strain database using PostgreSQL.
- Built an API for genotype data reporting in Elixir.
- Managed AWS infrastructure for deployments and hosting using ECS.
- Oversaw a production database conversion from MySQL to PostgreSQL.

Stage Right Labs, LLC

Owner / Founder: 2014 – Present

- Provides consulting services for clients who lack technical backgrounds.
- Advises non-profits, artists and startups on best practices for the operation and maintenance of websites, domain names and email accounts. Assists with recovering and maintaining corrupted WordPress installations.
